

**United Psychological**  
SERVICES

Welcome to United Psychological Services!

We're looking forward to helping you on your way to improved behavioral health and are happy to offer you this consult free of charge. This first meeting with Dr. Fisher will help us get to know you and give us critical information regarding the issues you may be dealing with and the best way we can help you to address them.

In your consult time with Dr. Fisher, you'll be discussing the concerns that bring you here. If you are attending with a minor child, loved one, friend or as a guardian, please keep in mind that sensitive/personal information may be discussed. In addition, Dr. Fisher will give you an idea of the testing, treatment, and/or counselling that she advises along with an estimate of potential costs associated with them.

We want to make certain that you are comfortable with all aspects of our plan to get you on your way to feeling your best behaviorally. **If you are accompanied by or accompanying someone to this consult and do not wish to discuss financial and personal health issues in front of them; please let Dr. Fisher know at the beginning of the consult so that she can make it as comfortable as possible for all parties involved.**

Once again, welcome to our practice and thank you for letting us be a part of your health care team.
